

At Gammapar, we want people to walk all over our floors...but that doesn't mean we're going to walk all over the environment.

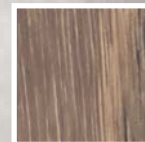

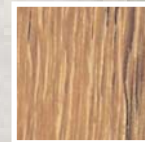

Gammapar manufactures for today and for the future.

We are proud to be a certified chain-of-custody member of the Forest Stewardship Council (FSC), the international non-profit association whose members work in partnership to improve forest management practices worldwide (chain-of-custody number SW-COC-1039).

When you request Gammapar products with FSC certification, you are assured that the wood used to make the product comes from a forest which is managed according to strict environmental, social and economic standards.

Gammapar, a Nydree Group Company.
For more information, contact your hardwood flooring sales professional, or call Gammapar at 800.283.5667.

By buying products with an FSC label you are supporting the growth of responsible forest management worldwide
